# India Smart Utility Week (ISUW 2019)

India Smart Grid Forum has been organising its flagship annual event, India Smart Grid Week (ISGW) since 2015. The 4<sup>th</sup> edition of ISGW was held from 05 to 09 March 2018. From the overwhelming feedbacks we received, ISGW 2018 was an astounding success, attended by over 2200+ delegates and 245 speakers from 38 countries.

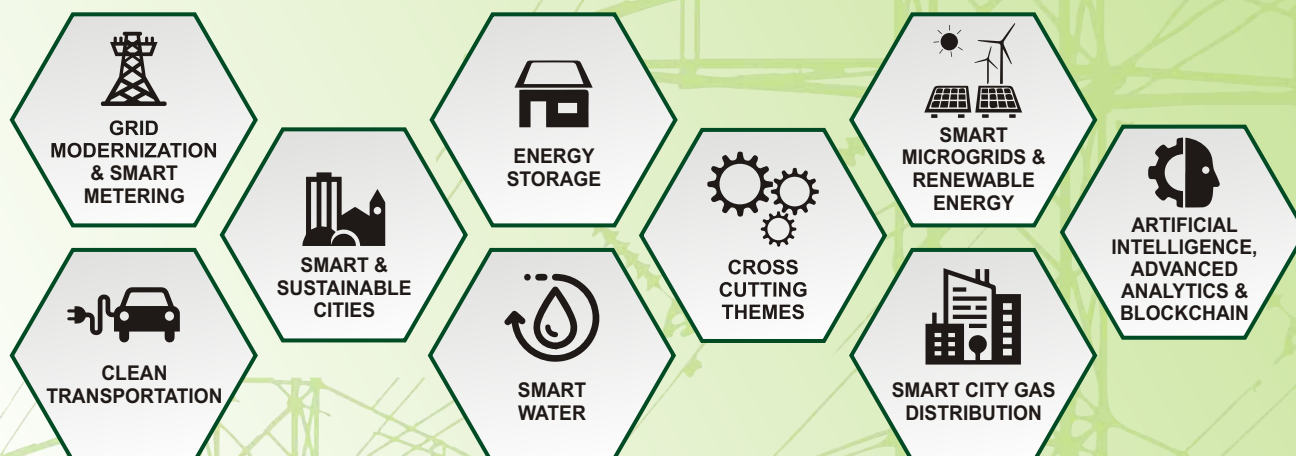

With the appreciation and motivation received from our stakeholders we are expanding the horizons of ISGW. With the inclusion of Gas Distribution and Water Distribution Utilities which are relevant in the Smart City domain, we are transforming the India Smart Grid Week (ISGW) to **India Smart Utility Week (ISUW)** in 2019. We are happy to announce that we have finalised 12 - 16 March 2019 as the dates for ISUW 2019.

ISUW 2019 will be organised as an International Conference and Exhibition that will cover key components of Smart Cities including Smart Grids, Smart Water and Smart City Gas Distribution. ISUW 2019 will bring together India's leading Electricity, Gas and Water Utilities, Policy Makers, Regulators, Investors and world's top notch experts and researchers on above domains to discuss trends, share best practices and showcase next generation technologies and products in smart utilities and smart cities domains. ISUW 2019 will include plenaries, interactive workshops, keynotes, and technical sessions. For more details visit [www.isuw.in](http://www.isuw.in)
