PARTICIPANT PROFILE

- government officials and policymakers
- renewable energy industry
- investors and financiers
- project developers and manufacturers
- start-ups and innovators
- multilateral agencies
- R&D institutions
- academia and think tanks
- civil society
- international media

INVEST IN INDIA

- Big market
- Strong economy
- 100% FDI
- Resilient political and judicial system
- Constantly enhancing ease to do business
- PPAs designed to protect investment and ensure timely payments

INDIA'S ACHIEVEMENTS

India, today is one of the world's most attractive RE markets, with exponentially increasing demand and proactive policy support, allowing 100% foreign investment through automatic route. Over USD 100 billion investment has already been made, and another USD 30 billion is underway. India's aim to add 450-500GW RE capacity by 2030, to be bid out by 2028, will need additional USD 80 billion by 2022, up to USD 400 billion by 2030.

RE-INVEST is an established international platform to discuss, explore and accelerate new strategies and efforts to develop and deploy renewables. It will connect the global investor community with stakeholders through a series of seminars, with exhibitions by diverse sectoral players showcasing products, services, manufacturing capabilities, latest technologies and financing opportunities.

	2024	2030
	130GW	350-375GW
	75GW	75-100GW
	13GW	15GW
	7GW	10GW
	225GW	450-500GW
