POWERGEN India
Indian Utility Week

Organised by:

International Partner:

EVENT OVERVIEW

In October 2022, the energy sector supply chain will come together at POWERGEN India, Indian Utility Week and DISTRIBUTECH India. Co-located at the Pragati Maidan in New Delhi, they will form one fully integrated event, underpinned by a high-level Strategic Summit and Exhibition over 3 days.

Attended by **8000 professionals** and 200 domestic and international exhibitors from across the energy value chain, the event will offer an invaluable end-to-end platform for learning, networking and collaboration. The summit and exhibition will focus on key drivers in smart energy for the region and India's strategy for achieving a smooth transition towards a low carbon supply. Attendees can expect to meet **high-quality, qualified buyers** from the ASEAN region.

For more than 15 years, POWERGEN India has served as India's premier forum for the power generation industry. Providing business opportunities for solution providers of all forms of power generation from conventional to renewable energy and associated energy storage. This leading forum is where the power industry can meet, share and discuss solutions for India's energy future.

Indian Utility Week will host an environment for all key players in the smart energy ecosystem to come together and discuss Indian strategy to achieve a smooth transition towards a low carbon energy supply. At Indian Utility Week you will meet with experts from utilities, network operators, vendors, consultants, startups and system integrators covering the entire smart energy value chain.

DISTRIBUTECH India, as part of the DISTRIBUTECH family of events, is the Indian T&D industry's go-to forum for learning, networking and buying. The role of the event and the T&D industry has broadened as renewables look to the grid and prosumers generate & sell power. The energy exchange is transforming and we serve as the central nervous system with an exclusive exhibition floor boasting numerous networking and matchmaking opportunities.

WHO WILL ATTEND?

Utilities	Independent Power Producers	Commercial and Industrial Users	Investors & Financiers	
Distributors and Resellers	Suppliers and Manufacturers	Government and NGOs	Technology Providers	
Academia and Research & Development	EPC'S	OEMs	Municipalities	Associations & Regulatory Bodies

NETWORKING
RECEPTION

NETWORKING

Making face-to-face connections with smart energy leaders, key influencers, new market entrants and the worldwide global industry is one of the key benefits of attending India's leading power and energy event. We offer the below that will enable you to network and make vital business connections:

- **NETWORKING RECEPTION**

You will be able to attend dedicated networking reception during the event.

- **ONSITE ACTIVITIES**

You can also join events promoted by our Partners and Sponsors on the Exhibition Floor.

- **COFFEE BREAKS**

Summit and Knowledge Hub coffee breaks on the Exhibition Floor are great opportunities to meet your peers and find your next business partners.

ARE YOU AN EXHIBITOR?

If you want to register your Booth Staff or Upgrade to an Exhibitor Delegate please go to your EZONE page for further information.

ARE YOU PRESS/MEDIA?

If you would like to register as Press or a Media Representative, please contact us directly on aman@itenmedia.in and we will get back to you ASAP.

SUMMIT THEMES

BUILDING A MODERN POWER SYSTEM

The flagship Summit will address India's transformation towards decarbonisation and a comprehensive, cheaper and scalable solution to digital age electricity grids. The multi-track programme will include high-level plenary keynotes and interactive discussions, providing the audience with invaluable insight, under the following themes:

AN EVOLVING ENERGY MIX

India's power generation sector was built on coal, but how the country generates its electricity is now undergoing a significant change. With an ambitious drive to decarbonise through a greater contribution from renewable energy and the resulting need for more operational flexibility by conventional assets, coupled with the shift towards more decentralisation of generation, India's energy mix is evolving. The Summit will discuss the key opportunities and issues in the generation sector borne from these changes.

A TRANSFORMING UTILITY SECTOR

India's ambitious target for 450GW of installed renewable capacity by 2030 enhances the need for greater flexibility in the power system. With the rollout of 250million smart meters underway and a forward looking e-mobility transition the digitalisation and adoption of new technologies across the energy sector is paramount. Here we will discuss the key opportunities and issues for the smart energy community.

KEY TAKEAWAYS

- How coal-fired generation has to evolve to remain a mainstay of India's power sector
- How to tackle the issue of stressed assets
- How project financing can be restructured to make it easier to secure funding
- How to effectively manage grids to ensure supply reliability and quality for consumers
- How to meet the challenge of ever-greater renewable energy integration
- How the sector can work together to nurture talent and enterprise for the future energy ecosystem

PROVISIONAL SUMMIT AGENDA

DAY - I - 12 OCTOBER 2022		
Time (hrs)	Session Details	
0900 - 1000	Registration	
1000 - 1130	Inaugural Session	
1130 - 1200	Networking Tea/Coffee Break	
1200 - 1300	Opening Panel : Green Hydrogen - Empowering India's Energy Transition & Energy Independence	
1300 - 1400	Lunch Break	
1400 - 1500	Net Zero by 2070 - Decarbonisation Roadmap for the Indian Energy Sector	
1500 - 1530	Networking Tea/Coffee Break	
1530 - 1630	Democratising & Transforming India's Electricity Markets	
1630 - 1730	Energy Storage & Microgrids - Central to Decentralisation	
End of Day I		
DAY - II - 13 OCTOBER 2022		
Time (hrs)		 
1000 - 1115	Energy CEO Roundtable: India Generation Outlook & Transformation Roadmap	Utility CEO Roundtable: India Utility Outlook & Transformation Roadmap
1115 - 1145	Networking Tea/Coffee Break	
1145 - 1300	Energy CIO Roundtable - Digital Next-Generation	Utility CIO Roundtable - Digital-Age Utility of the Future
1300 - 1400	Lunch Break	
1400 - 1515	Flexible, Autonomous & Sustainable Power Generation	India Smart Metering & AMI Outlook
1515 - 1545	Networking Tea/Coffee Break	
1545 - 1700	Strategic Role of Gas-based Power Generation in India's Clean Energy Transition	Next-Gen Smart Grid Infrastructure
End of Day II		
DAY - III - 14 OCTOBER 2022		
Time (hrs)		 
1000 - 1115	Decoding the Future Energy Mix - State of Renewables & Future of Conventional	Grid Cybersecurity : Emerging Risks & Mitigation Strategies
1115 - 1145	Networking Tea/Coffee Break	
1145 - 1300	Emission Control Norms: Outlook & Compliance Roadmap	EV Charging Infrastructure - Driving Change on the Grid
1300 - 1400	Lunch Break	
1400 - 1515	Closing Panel - Decarbonising Power Generation - Initiatives & Innovations	Closing Panel - Decarbonising Utilities - Greening the Grid
End of the summit		

Note: The Summit will include coffee breaks and lunch on the exhibition floor. Summit schedule and topics are subject to change.

SAVE 20% BEAT THE EARLY BIRD DEADLINE OF 30th JULY 2022

DAY - I - 12 OCTOBER 2022		
Time (hrs)	POWERGEN INDIA	Indian Utility Week DISTRIBUTECH INDIA
1200-1300	Deep Dive into Intelligent Plant Technologies	
1400-1500		Digitalisation Deep Dive: IoT, Blockchain, AI, VR, AR etc
1530-1630	Practical Solutions for Building in Flexibility	
DAY - II - 13 OCTOBER 2022		
Time (hrs)	POWERGEN INDIA	Indian Utility Week DISTRIBUTECH INDIA
1030-1130		Novel Smart Metering & AMI Technologies
1200-1300	Innovations in Plant Optimisation & Efficiency Management	
1400-1500		State of the Art Cybersecurity for Critical Energy Infrastructure
1515-1615	State of the Art Emission Control Technologies	
DAY - III - 14 OCTOBER 2022		
Time (hrs)	POWERGEN INDIA	Indian Utility Week DISTRIBUTECH INDIA
1030-1130		Practical Solutions for RE Grid Integration
1200-1300	New Thinking in O&M	
1400-1500		Solution & Innovations for Grid Modernization

MEET THE ADVISORY COMMITTEE

The Advisory Committee, chaired by Mr Anil Razdan, Former Secretary for Power, plays an instrumental role in the formulation of a highly relevant Summit agenda. Made up of Senior Executives from across the Energy value chain, including Utilities, EPCs, IPPs and Regulators, the Committee provides invaluable insight and ideas for thought-provoking content that will leave the audience educated and inspired. See what our Advisory Committee members have to say at www.powergen-india.com/video-gallery and www.indian-utility-week.com/gallery
